

Knight Riders Chess Academy

“Chess is the gymnasium of the mind.”

For long, chess has been considered as a game played only by intellectuals and individuals with critical thinking abilities. However, the fact is that chess can be played by people of all age groups and mind sets.

Playing the game of Chess on a regular basis right from the childhood improves the learning, thinking, analytical power and decision-making ability of the child. Chess makes the child learn how to strategize aspects of the game and life. In addition, a child can also learn the importance of foresight and planning. Playing the game of Chess on a regular basis right from the childhood teaches the importance of being disciplined in life.
